**ABOUT QUALIFICATIONS.**

**W**HAT has Frank A. Howell ever done for the people of New Mexico that he should demand election to the office of United States Senator? The people of this state should give him the honor which is his due. He is a citizen of a sovereign state. Frank A. Howell is a man who has done for the people of New Mexico what no other man has done. He has done for the people of New Mexico what no other man has done. He has done for the people of New Mexico what no other man has done.

Again we might ask what has Frank A. Howell ever done for the people of New Mexico that he should demand election to the office of United States Senator? The people of this state should give him the honor which is his due. He is a citizen of a sovereign state. Frank A. Howell is a man who has done for the people of New Mexico what no other man has done. He has done for the people of New Mexico what no other man has done.

There was when a man who had been successful in business and a successful politician, could make his way to the Senate. The Senator was a man who had been successful in business and a successful politician, could make his way to the Senate. **NOW AND THEN**

**T**IMES change. Apparently an old man to the contrary, the change with them. At least "Old" Millenwater, now chairman of the state republican committee, has

changed. Millenwater, a man who will remember "Old" as his friend, has not yet lost his original character. He is a man who will remember "Old" as his friend, has not yet lost his original character. He is a man who will remember "Old" as his friend, has not yet lost his original character.

**Your Smoky Money**

That's it rolling up out of the chimney—your smoky money! It's fuel that your furnace "passed up." It should be helping to warm your house. But it's being wasted—though it cost you good cash. You need a Moore's!

**Moore's Furnace**  
With the Dustless Ash Pan

Examine the Moore's Everlasting Firepot and you'll see why it uses up all that "heatful" in the coal. The slots in its sides admit air and make the fire burn in to the center instead of straight up from the bottom. In this way all the gas, carbon and smoke are burnt up, stripped of their heat-units. None of your good money goes up the chimney.

When you come in to see the Moore's today, we'll show you some of its other features: the extra-sized radiator, its Dustless Ash Pan, Double-Acting Grate, etc.

Don't miss this!
